

Consolidated Financial Results for the 2nd Quarter of Fiscal 2021 and Full-Year Forecasts

Disclaimer

- This material contains forward-looking statements that reflect management's current views, plans, and expectations based on information available at the time of preparation. These forward-looking statements are not guarantees of future performance and involve known and unknown risks, uncertainties, future business decisions, and other internal and external factors that may cause the Company's actual results, performance, achievements, or financial position to be materially different from any future results expressed or implied by these forward-looking statements.
- Additionally, this information is subject to change without notice. Accordingly, other information should be used in addition to this material when making investment decisions.
- Olympus Corporation assumes no responsibility for any damage resulting from the use of this material.

Changes in Reporting Structure

With the divestiture of the Imaging Business, it is disclosed as a discontinued operation from 2Q (based on IFRS)

- Profit (loss) from discontinued operation is disclosed in Consolidated Financial Results
- Performance of discontinued operation is disclosed as supplementary information

* On September 30, 2020, Olympus divested its Imaging Business to a newly established wholly owned subsidiary of the Company (the "New Imaging Company"), through an absorption-type split. In addition, the Company concluded a final agreement with Japan Industrial Partners, Inc. on September 30, 2020 concerning the transfer of 95% of the shares of the New Imaging Company to OJ Holdings, Ltd., a special purpose company established by JIP. Due to this, the Imaging Business has been classified as a discontinued operation from the second quarter under review. As a result, a portion of the Condensed Consolidated Statements of Profit or Loss, Condensed Consolidated Statements of Cash Flows and Significant Notes Thereto for the six months ended September 30, 2019 have been reclassified in line with the presentation style for the six months ended September 30, 2020.

Highlights

1H and 2Q Consolidated Financial Results

- ✓ Revenue: YoY decline in revenue slowed in 2Q, despite continuing COVID-19 headwinds
- ✓ Operating Profit: Achieved operating margin of approx. 10% in 1H due to SG&A streamlining even in difficult business environment
Improved significantly to approx.15% in 2Q

Full-Year Performance Forecasts

- ✓ COVID-19 impact will continue to improve gradually by the end of the fiscal year, revenue are expected to decrease by approx. 8% and securing operating profit of approx. ¥60 billion
- ✓ Plans for expenses and investments assume that business activities will become more active along with the recovery trend. However, depending on changes in the situation, we will further strengthen cost control
- ✓ Year-end dividend is planned to be ¥10 from the viewpoint of stable shareholder return and continuity although loss will be posted due to expenses related to the divestiture of the Imaging Business

01

**Consolidated Financial Results and
Business Review for the 2Q of Fiscal
2021 (FY Ending March 31, 2021)**

2Q of Fiscal 2021 (1) Consolidated Financial Results

- 1 Revenue: Decreased in 1H but YoY decline slowed in 2Q (1Q: -19% → 2Q: -8% after FX adjustment)
- 2 Operating profit: 2Q profitability showed remarkable improvement, resulted in operating margin of approx. 10% in 1H and 15% in 2Q alone, driven by revenue recovery and SG&A streamlining

	1H (Apr. - Sep.)		Supplemental data			2Q (Jul. - Sep.)				
	(Billions of yen)	FY2020	FY2021	YoY	After FX adjustment	After FX and COVID-19 adjustment	FY2020	FY2021	YoY	After FX adjustment

EPS	¥27	-¥18	-	-	-	-	-	-	-	

* The figures from "Revenue" to Profit from continuing operation" represents continuing operation.

**Our calculations on the impact are based on the assumption that we would have achieved the same level of performance as the previous year if it is not for COVID-19, excluding FX impact, other income and expenses, and a one-off item (costs associated with voluntary recall of endoscopic products)..

Updates: January to September

Medical revenue recovered to the previous year's levels in September

2Q of Fiscal 2021 (2) Endoscopic Solutions Division (ESD)

■ Revenue ■ Operating Profit
(Billions of yen)

✓ Revenue

- 1H: Revenue decreased YoY due to COVID-19
- 2Q: YoY decline in revenue slowed from 1Q due to growth in Europe (+2% after FX adjustment), driven by UK and Eastern Europe

✓ Operating profit

Despite recording ¥6 billion in COGS for the voluntary recall of endoscopic products, operating margin stood at approx. 24% after FX adjustment, supported by SG&A streamlining

1H (Apr. - Sep.)

(Billions of yen)	FY2020	FY2021	YoY	After FX adjustment
Revenue	206.8	182.0	-12%	-10%
Operating profit	59.8	42.1	-30%	-25%

03

Transforming into a Truly Global Medtech Company

Committed to Corporate Reforms

FY2021

Great chance to accelerate transformation to a truly global medtech company for sustainable growth

Focus the corporate portfolio

Structural reform of fixed costs

Successful launch of next-gen GI endoscopy system EVIS X1

Continued steady investment in product development for future growth

Driving efficiency in our R&D operations

Continue ongoing reforms in 2H following our achievements in 1H

- Olympus and Japan Industrial Partners signed the definitive agreement to transfer our Imaging Business
- EVIS X1 has been launched in EMEA, some parts of Asia, and Japan
- “ENDO-AID”, a CAD platform for our endoscopy system, has been launched in EMEA and some parts of Asia in early November.
- Acquired FH ORTHO which develops and manufactures orthopedic devices and instruments
- Started deliberation on reorganization of domestic sales functions in the Olympus Group to strengthen sales capabilities

AI-Powered CAD for Our Next-Gen Endoscopy System EVIS X1

ENDO-AID enables us to provide innovative technologies in each stage from detection to treatment
Endoscopy system that sets new standards for endoscopic diagnosis and treatment

ENDO-AID, a CAD platform powered by AI that includes endoscopy application for the colon, has been launched in EMEA and some parts of Asia in early November.

White Light

ENDO-AID CADe
with marker

The platform enables real-time display of automatically detected suspicious lesions and works in combination with EVIS X1.

It is expected to further strengthen our leadership in the GI endoscopy system with over 70% market share.

Initiatives in Medical Field for Sustainable Growth

Acquired FH ORTHO which develops and manufactures orthopedic devices and instruments

- The acquisition enables us to expand our orthopedic products that have been developed through Olympus Terumo Biomaterials Corp.* and to expand the business via FH ORTHO's existing global distribution channels.
- We have also developed the first ultrasound device indicated for arthroscopic surgery. These underscore our commitment to expanding in the growing field of orthopedic minimally invasive surgery (MIS).

* Olympus is already active in orthopedics in Japan, where its joint venture Olympus Terumo Biomaterials Corp. distributes products such as bone substitutes and high tibial osteotomy (HTO) plates and screws.

Started deliberation on reorganization of domestic sales functions in the Olympus Group to strengthen sales capabilities

- Plan to integrate the domestic sales functions of both Olympus Corp. and Olympus Medical Science Sales Corp. for Medical and Scientific Solutions Businesses.
- Aim to realize flexible resource assignment, enhance cooperation with business partners, implement unified sales policy across Japan, and retain highly capable talent

Key Product Catalysts: Endoscopic Solutions Division (As of Nov.13, 2020)

Corporate Strategy of ESD : Further strengthen leadership in endoscopy

Maintain leadership in conventional endoscopy through continued innovation and commercial excellence

Complement our portfolio with single-use endoscopes to provide a comprehensive set of product offerings

Growth driver now

GI endoscopy

- EVIS LUCERA ELITE (Japan, China)
- EVIS EXERA III (US, EU)

Surgical endoscopy

- VISERA ELITE II (US, EU, Japan)
- VISERA ELITE (China)
- VISERA 4K UHD (US, EU, Japan, China)

Just launched / Coming soon

GI endoscopy

- EVIS X1 (EU, Japan)
- TJF-Q190V, duodenoscope (US)
- ENDO-AID, endoscopy CAD platform for EVIS X1(EU)

Beyond

GI endoscopy

- EVIS X1(US, China)
- 3D function for EVIS X1
- Single-use duodenoscope

Surgical endoscopy

- VISERA ELITE II (China)
- New generation surgical endoscopy system(EU, Japan)

Key Product Catalysts: Therapeutic Solutions Division (As of Nov. 13, 2020)

Corporate Strategy of TSD : Focus and scale our TSD business

GI endotherapy

Expand and accelerate portfolio in existing product categories and explore growth opportunities in adjacent areas

Urology

Establish leadership in BPH and enhance position in stone management through portfolio expansion

Respiratory endotherapy

Strengthen leadership by capturing the BLVR* market and expand opportunities in early diagnosis and treatment of lung cancer

Growth driver now

GI endotherapy

- Visiglide series
- ESD Knife
- EZ Clip / QuickClip Pro
- EndoJaw

Urology

- Resection electrode

Respiratory endotherapy

- ViziShot series

Just launched / Coming soon

GI endotherapy

- 5 products (US)
- 5 products (EU)
- 10 products (Japan)
- 5 products (China)

Urology

- iTind, non-surgical device for Benign Prostatic Hyperplasia (US, EU)
- SOLTIVE SuperPulsed Laser System**, stone lithotripsy system (US, EU)

Beyond

GI endotherapy

- Single-use cholangioscope

Urology

- Single-use ureteroscope

Respiratory endotherapy

- Single-use bronchoscope

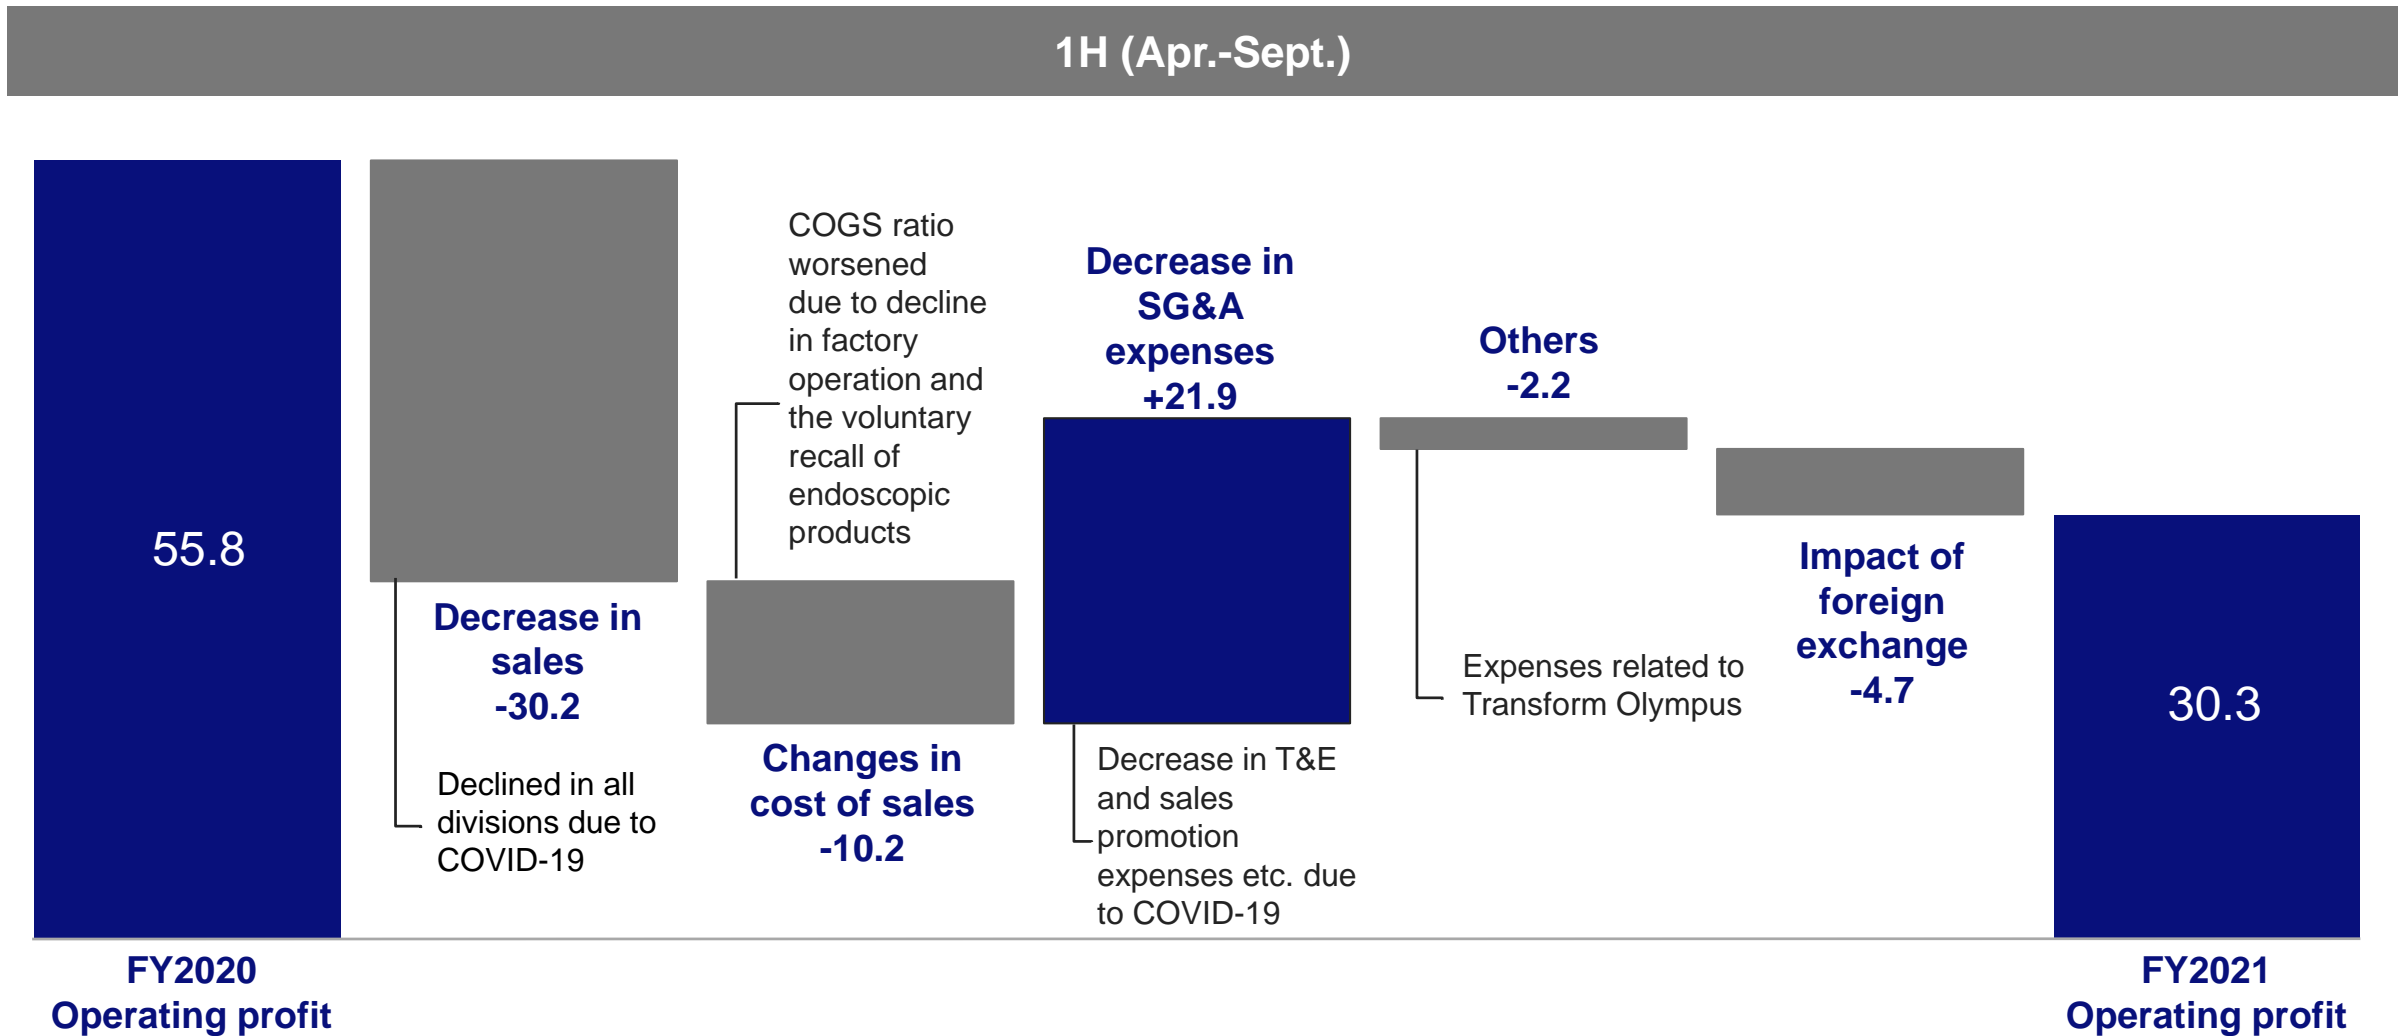

* Bronchoscopic Lung Volume Reduction ** Please refer to Appendix (P.28) for the detail of SOLTIVE SuperPulsed Laser System.

OLYMPUS

A thick, yellow, brushstroke-style underline that tapers at both ends, positioned directly beneath the word "OLYMPUS".

(FY2020 1H: ¥5.2 billion, FY2021 1H: ¥8.4 billion, FY2021 Forecast: ¥34.0 billion)

Supplementary Materials: New Products in Urology

iTind

- Product summary:
- iTind is a non-surgical device for the minimally invasive treatment of Benign Prostatic Hyperplasia (BPH).
 - This novel device strengthens the already robust Olympus urology portfolio by offering expanded options in enhanced patient care.

Launch area: ▪ US, EU

SOLTIVE SuperPulsed Laser System

SOLTIVE Premium SuperPulsed Laser System (right)
SOLTIVE Pro SuperPulsed Laser System (left)

- Product summary:
- The SOLTIVE SuperPulsed Laser System is a new application of thulium fiber laser technology designed for stone lithotripsy and soft tissue applications.
 - Efficient stone dusting contributes to shortening surgery time and decreasing the burden on patients.

Launch area: ▪ US, EU
